DESCRIPTION

Fine joints on small components need a slim, precise tip. The B03D of the CLASSIC series, with a tip diameter of just 0.5 mm, fits the 14S soldering iron and places heat exactly where it is needed without endangering neighbouring pads.

BENEFITS

- Fine 0.5 mm tip diameter for precise fine-soldering on small components
- Original CLASSIC series replacement tip, exact fit for the 14S iron
- Slim shape for a clear view and access on densely populated areas
