

Soldering tip hoof spoon 20° for fine pitch, D 2.3 mm - JBC C245-067

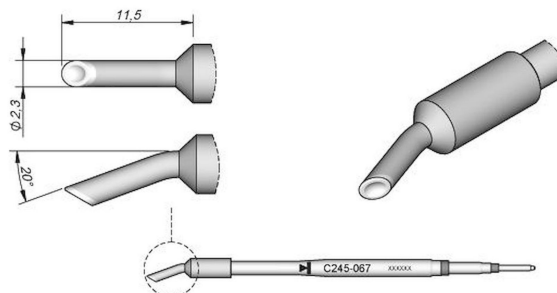

Item no. WL22504

Manufacturer JBC

Spoon-shaped hoof tip 2.3 mm from the C245 series for the JBC T245 iron. The built-in solder reservoir and 20° angle are designed to clear bridges on fine-pitch components.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Spain
HS-Code	85159080900
Serie	C245
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

The C245-067 is a spoon-shaped hoof tip with a 2.3 mm diameter for the JBC T245 soldering iron (formerly AD-2245). The hoof acts as a solder reservoir and takes up excess solder, while the 20° angle supports clean drag-soldering of fine pin rows. The integrated heater delivers heat fast right at the joint.

BENEFITS

- Hoof solder reservoir for clean drag-soldering of fine-pitch rows
- 20° angle for better access and controlled solder flow
- Tip and heater in one cartridge for fast thermal recovery
- Sleep and standby mode via the holder reduces wear and power use
- Tool-free tip change in seconds on the T245

TECHNICAL DATA

Item no.	WL22504
Model	C245-067

Manufacturer no.	C245067
Tip series	C245
Tip shape	hoof, spoon-shaped
Tip alignment	20° angled
Tip diameter	2.3 mm
Tip length	11.5 mm
Overall length	100 mm
Use	for fine pitch
Integrated heater	yes
Compatible handpiece	T245

APPLICATIONS

For fine-pitch soldering and removing solder bridges on closely spaced SMD lead rows.

COMPATIBILITY AND SCOPE OF DELIVERY

Fits the JBC T245 soldering iron. Supplied as a single piece (1 tip).

ESD-safe working to IEC 61340-5-1. Origin: Spain.
