

## Special chisel soldering tip 4,8 x 1,5 mm for large-area tinning - JBC C245-708

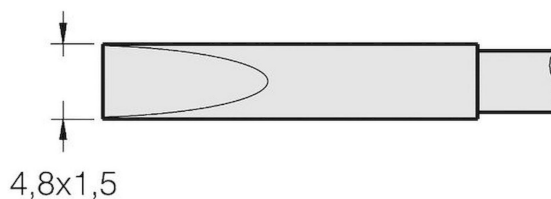

Item no. WL22585

Manufacturer JBC

C245 series special soldering tip with a reinforced iron layer for large-area tinning on the T245 handpiece. The integrated heater keeps the temperature stable even at high heat demand.

### TECHNICAL DATA

|                        |                  |
|------------------------|------------------|
| Ausführungsklasse      | ESD (antistatic) |
| Country of Manufacture | Spain            |
| HS-Code                | 85159080900      |
| Series                 | C245             |
| Weight                 | 0.1 kg           |

### STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

### DESCRIPTION

The JBC C245-708 is a chisel special soldering tip from the C245 series for the T245 handpiece. It is designed for large-area tinning and has a reinforced iron layer for longer life under heavy use.

### BENEFITS

- Reinforced iron layer for long tip life during large-area tinning.
- Chisel shape 4,8 x 1,5 mm transfers high heat to wide solder areas.
- Integrated heater and sensor keep the temperature constant even at high heat demand.
- Sleep and standby modes via the stand extend service life.
- Tool-free tip change on the T245.

| Tip series            | C245     |

|                      |                       |
|----------------------|-----------------------|
| Tip shape            | chisel                |
| Tip dimensions       | 4,8 x 1,5 mm          |
| Tip length           | 13,5 mm               |
| Total length         | 100 mm                |
| Tip alignment        | straight              |
| Special feature      | reinforced iron layer |
| Integrated heater    | yes                   |
| Compatible handpiece | T245                  |

## APPLICATIONS

Large-area tinning, soldering with high heat demand and rework on PCBs with lead-free and leaded solders.

## COMPATIBILITY AND SCOPE OF DELIVERY

Fits the T245 handpiece and JBC stations with a T245 connection (e.g. CD-2BQF, CDE-2BQA).  
Supplied as a single tip.

Made in Spain. ESD safe to IEC 61340-5-1. CE, RoHS.
