

Soldering tip chisel-shaped, 6.6 x 1.8 mm, C245 series for T245 - JBC C245-966

Item no. WL22628

Manufacturer JBC

Series C245 chisel-shaped soldering tip (6.6 x 1.8 mm) with integrated heater for the JBC T245 handpiece. ESD safe, for precise electronics soldering.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Spain
HS-Code	85159080900
Series	C245
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

Series C245 soldering tip with integrated heater for the JBC T245 handpiece. The cartridge combines heating element, sensor and tip in a single part, giving precise temperature control and fast heat-up for general soldering work.

BENEFITS

- High Thermal geometry: around 40 % more efficient heat transfer to the joint for faster turnaround.
- Integrated heater and sensor: stable temperature right at the tip rather than the shank.
- Tip geometry chisel-shaped (6.6 x 1.8 mm) for focused work on the relevant joint.
- Sleep and hibernation when set in the stand protects the tip and extends its service life.
- Fits the T245 handpiece directly, no adapter required.

TECHNICAL DATA

Manufacturer	JBC
Model	C245-966

Manufacturer item no.	C245966
Item no.	WL22628
Tip series	C245
Tip shape	chisel-shaped
Tip alignment	straight
Tip dimensions	6.6 x 1.8 mm
Tip length	-
Total length	100 mm
Integrated heater	yes
Suitable handpiece	T245

APPLICATIONS

General soldering on PCBs and electronic assemblies, matched to the size and geometry of the joint.

COMPATIBILITY AND SCOPE OF DELIVERY

Suitable for the JBC T245 handpiece. Supplied as a single soldering tip (1 piece).

ESD safe to IEC 61340-5-1. RoHS compliant. Made in Spain.
