

Cleaning brush for FE suction tube 6 mm - JBC 4009

Item no. WL23292

Manufacturer JBC

Cleaning brush for the 6 mm suction tube of the JBC fume extraction. Keeps the bore clear and preserves extraction performance. Spare part 4009.

TECHNICAL DATA

Country of Manufacture Spain

HS-Code 84799070

Weight 0.1 kg

DESCRIPTION

Cleaning brush that keeps the 6 mm suction tube of the JBC fume extraction (FE series) clear. Regular cleaning preserves the full bore and therefore the extraction performance at the workstation.

BENEFITS

- Removes flux and solder residue from the 6 mm suction tube
- Preserves the full bore and the extraction rate
- Simple spare part for regular maintenance
