

FE retrofit kit for solder fume extraction at the iron, 4.5 mm dia. - Weller T0052918599

Item no. WL23690

Manufacturer Weller

Retrofit kit for direct solder fume extraction at the iron with a 4.5 mm suction tube. Keeps the workplace breathing air free of solder fume and fits WMRP, WSP80, WP80, MLR21, MLR80 and WMP.

TECHNICAL DATA

Country of Manufacture **Germany**

HS-Code **85159080900**

Weight **0.1 kg**

DESCRIPTION

The FE retrofit kit equips common Weller soldering irons with direct solder fume extraction. The fume is captured right at the soldering tip before it reaches the operator's breathing zone.

BENEFITS

- Direct capture of solder fume at the source for cleaner breathing air
- Suction tube with 4.5 mm diameter, also suited to the fine WMRP
- Retrofits existing soldering irons without replacing them

TECHNICAL DATA

Model T0052918599

Manufacturer art. no. T0052918599N

Diameter 4.5 mm

Order unit piece

COMPATIBILITY

Fits the WMRP, WSP80, WP80, MLR21, MLR80 and WMP soldering irons.
