

LED Module Pure White 6000 K, Flood 28°, 21 mm - Starlight 100-006421

Item no. STL-100-006421

Manufacturer Starlight

LED module with pure white light (6000 K) and a 28° flood optic in a 21 mm size. Produces broad, even illumination and extends the StarLight modul-LED system for area lighting.

TECHNICAL DATA

Colour	White
Weight	0.1 kg

DESCRIPTION

The LED module delivers pure white light at 6000 K colour temperature with a broad 28° flood optic. Its compact 21 mm size makes it a flexible building block of the StarLight modul-LED system for broad, even illumination.

BENEFITS

- Pure white light at 6000 K for neutral, bright illumination
- Flood optic 28° for broad, even illumination
- Compact 21 mm size
- Part of the modular StarLight modul-LED system

TECHNICAL DATA

Light colour	pure white
Colour temperature	6000 K
Optic	Flood (28°)
Size	21 mm
Model	100-004582 / 100-006421
Manufacturer	STARLIGHT
Manufacturer part no.	100-006421

APPLICATIONS

Suited to microscopy, inspection, assembly and quality control where broad, even illumination is required.
