

FE adapter kit for fume extraction at the iron, 2 m hose - JBC F4468

Item no. WL24226

Manufacturer JBC

Adapter kit for solder fume extraction directly at the soldering iron, suitable for the AL-2A extraction unit. Complete with a 2 m hose and clips, 6 mm connection diameter. Captures flux fumes at the source.

TECHNICAL DATA

Country of Manufacture **Spain**

HS-Code **85159080900**

Weight **0.1 kg**

DESCRIPTION

Solder fume contains flux vapours that are best captured right at the tip, before they reach the workplace. The JBC F4468 FE adapter kit routes the extraction hose directly to the soldering iron and connects it to the AL-2A extraction unit.

BENEFITS

- Captures solder fume right at the joint before it is inhaled
- Complete set with a 2 m hose and fixing clips, ready to use
- 6 mm connection diameter matching the AL-2A extraction unit
- Freedom of movement at the bench thanks to the flexible hose

TECHNICAL DATA

Model	0004468 / F4468
Item no.	WL24226
Manufacturer item no.	F4468
Manufacturer	JBC
Hose length	2 m
Connection diameter	6 mm
Suitable for	AL-2A

Dimensions with packaging (L x W x H)	245 x 185 x 45 mm
Order unit	set

APPLICATIONS

Spot extraction of solder fume at manual soldering benches where an iron is run with the AL-2A extraction unit.

COMPATIBILITY AND SCOPE OF DELIVERY

Suitable for the AL-2A extraction unit. Scope of delivery: adapter, 2 m hose and clips.

RoHS compliant. Manufactured by JBC, Spain.
