

## LED reflected-light lamp 2-arm with protective glass, arm length 600 mm - Starlight IL3-600 2-arm

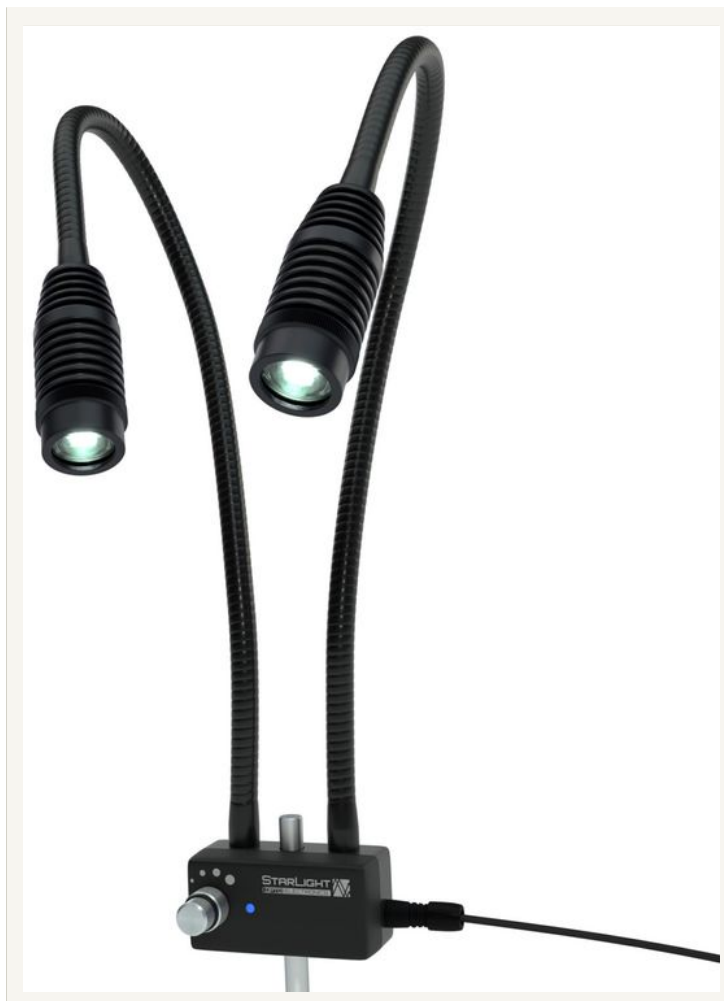

Item no. STL-100-006573

Manufacturer Starlight

Two-arm LED gooseneck lamp with two long 600 mm arms and borosilicate protective glass for low-shadow, flicker-free reflected light. Brightness is finely adjustable from 0-100% with a memory function, and the modul-LED concept enables fast lamp changes.

### TECHNICAL DATA

Weight **0.1 kg**

### DESCRIPTION

The Starlight IL3-600 2-arm is a two-arm LED reflected-light lamp with two long 600 mm arms and borosilicate protective glass that illuminate the object with low shadows from two directions. The flicker-free light of the 3 W power LEDs is also suitable for photo and video.

### BENEFITS

- Two long 600 mm arms for low-shadow illumination with a large radius
- Fine brightness control 0-100% with memory function
- Borosilicate protective glass shields the light sources from dust and damage
- Fast lamp change thanks to the modul-LED concept
- Flicker-free light for photo and video

### TECHNICAL DATA

Light source **2 × LED module 28 mm**

|                                   |                                  |
|-----------------------------------|----------------------------------|
| LED type                          | 3 W power LED                    |
| Brightness control                | fine 0-100% with memory function |
| Power supply input                | 100-240 V AC, 50/60 Hz           |
| Power supply output               | 24 V DC, 1 A                     |
| Operating voltage                 | 24 V DC                          |
| Protection class                  | III                              |
| Ingress protection                | IP52                             |
| Number of arms                    | 2                                |
| Arm length                        | 600 mm                           |
| Stand rod diameter                | 12 mm                            |
| Power cable length                | approx. 1.40 m                   |
| Protective glass                  | borosilicate glass               |
| Material                          | anodised aluminium               |
| Colour                            | black                            |
| Weight                            | approx. 0.9 kg                   |
| Controller dimensions (L × W × H) | 80 mm × 40 mm × 37 mm            |
| Manufacturer part no.             | 100-006573                       |
| ESD safe                          | no                               |

## APPLICATIONS

For microscopy, inspection, assembly and quality control at laboratory and industrial workplaces as well as in research and electronics manufacturing.
