DESCRIPTION

Desoldering stations regularly need spare and wear parts to keep vacuum and desoldering performance up. The JBC 10261 accessory set bundles the matching original parts for the DR5600 and DR5650 desoldering stations in one set.

BENEFITS

- Original JBC accessory, an exact fit for the DR5600 and DR5650
- Bundles the required spare and wear parts in one set
- Maintains vacuum performance and station function
- Reduces downtime by keeping spares on hand
