

Heating element 230 V for soldering iron 150S - JBC 182830

Item no. WL24334

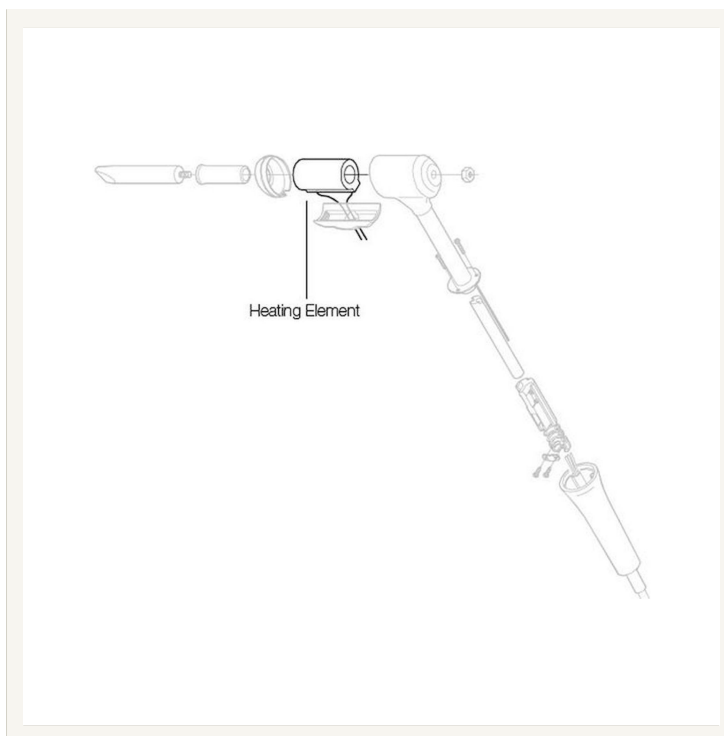

Manufacturer JBC

Original heating element for the JBC 150S soldering iron, rated for 230 V. Spare part to restore the iron's full heating performance.

TECHNICAL DATA

Country of Manufacture **Spain**

HS-Code **85159080900**

Weight **0.1 kg**

DESCRIPTION

A failing or faulty heating element leads to fluctuating soldering temperature and unreliable joints. The JBC 182830 is the matching 230 V original heating element for the 150S soldering iron and restores its full heating performance.

BENEFITS

- Original JBC spare part, an exact fit for the 150S soldering iron
- Rated for 230 V mains voltage
- Restores constant soldering temperature and full heating performance
- Extends the service life of the existing iron

TECHNICAL DATA

Model	0182830
Item no.	WL24334
Manufacturer item no.	182830
Manufacturer	JBC
Voltage	230 V
Suitable for	soldering iron 150S
Dimensions with packaging (L x W x H)	90 x 55 x 40 mm
