

## LED Module Diffuse 40°, pure white 6000 K, Ø 28 mm - Starlight 100-006465

Item no. STL-100-006465

Manufacturer Starlight

LED module with Diffuse 40° optic in pure white (6000 K) for the modul-LED concept. The quick, tool-free module swap keeps light colour and beam angle fully adaptable. Compact Ø 28 mm build for incident light on microscopes and inspection systems.

### TECHNICAL DATA

|--------|--------|
| Colour | White  |
| Weight | 0.1 kg |

### DESCRIPTION

This LED module provides pure white light (6000 K) with a Diffuse 40° optic and is part of the modul-LED concept. The fast, tool-free swap lets you match the right light characteristic in seconds.

### BENEFITS

- Diffuse optic (40°) for targeted illumination
- Pure white light with 6000 K colour temperature
- Tool-free, fast module change (modul-LED concept)
- Compact build with Ø 28 mm
- Combinable with a wide choice of optics and light colours

### TECHNICAL DATA

|                       |               |
|-----------------------|---------------|
| Light colour          | pure white    |
| Optic                 | Diffuse (40°) |
| Colour temperature    | 6000 K        |
| Length                | 28 mm         |
| Model                 | 100-006465    |
| Manufacturer          | STARLIGHT     |
| Manufacturer part no. | 100-006465    |

## APPLICATIONS

Suitable for incident lighting on microscopes and inspection systems, for assembly, quality control, electronics rework as well as laboratory and research applications.
