

Workstand with standby temperature drop, brass wool and sponge - Oki WS2

Item no. WL24491

Manufacturer Oki

Tips left at working temperature oxidise quickly and have to be replaced early. The Oki WS2 detects when the iron is parked and lowers the temperature automatically, which noticeably improves tip life and energy use. Brass wool and a cleaning sponge for tip cleaning are already included.

TECHNICAL DATA

Weight

0.1 kg

DESCRIPTION

The Oki WS2 workstand holds the PS-HC3 and PS-H3 hand pieces securely and puts the station into standby as soon as the iron is parked. The automatic temperature drop slows tip oxidation during idle periods and extends the service life of the soldering tip.

BENEFITS

- Automatic temperature lowering when the soldering iron is parked
- Longer tip life thanks to less oxidation during idle time
- Brass wool included for dry cleaning that does not shock the tip thermally
- Cleaning sponge for conventional wet cleaning also supplied
- Stable stand designed for the PS-HC3 and PS-H3 hand pieces

TECHNICAL DATA

Item number	WL24491
Model	WS2
Manufacturer	OKI
Manufacturer item number	WS2
Product type	Workstand with temperature lowering
Cleaning	Brass wool and sponge

Suitable for	PS-HC3, PS-H3
Weight	0.1 kg

APPLICATIONS

Soldering benches in electronics manufacturing, repair and prototyping where the iron is parked many times a day. Particularly useful where tip consumption and energy costs need to be reduced.

COMPATIBILITY AND SCOPE OF DELIVERY

Intended for the Oki PS-HC3 and PS-H3 hand pieces. Scope of delivery: WS2 workstand with brass wool and cleaning sponge, sales unit piece.
