TECHNICAL DATA

Weight **0.1 kg**

DESCRIPTION

The BVX-201 is a two-man, PRE-HEPA-GAS volume extraction system designed for use next to workbenches.

- Two-station design for dynamic flue gas extraction
- New brushless motor, quiet operation
- Complete portability, placed under or next to the tabletop.
- Equipped with 2x 50mm (2") Ø arms or 1x 63mm (2.5") Ø arm
- The main filter has a HEPA efficiency of 99.97% at 0.3 micron and an activated carbon filter to remove additional gases.
- Acoustic alarm informs the operator when filters need to be replaced.
- Easy access for switching the remote switch on and off
