

Bench bracket with 2 C-clamps for BVX-101 and BVX-103 - Oki BVX-TB01

Item no. WL24521

Manufacturer Oki

Bench bracket that fixes a BVX-101 or BVX-103 extraction unit to the worktop and frees up bench space. It mounts with two supplied C-clamps, so no holes have to be drilled in the table. The extractor then keeps the height and orientation you set once.

TECHNICAL DATA

Weight

0.1 kg

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

An extraction unit standing on the worktop takes up space and gets pushed around when boards are moved. The BVX-TB01 is a bench bracket that clamps the BVX-101 or BVX-103 to the table edge with two C-clamps and holds the extractor permanently in position.

BENEFITS

- Mounts with two C-clamps, no drilling into the worktop
- Frees up footprint on the bench surface
- Extraction unit stays in the orientation you selected
- Low-effort fitting and quick transfer to another workstation
