

Soldering tip mini hoof 60°, 1 x 15 mm PHT series - Oki PHT-754627

Item no. WL24802

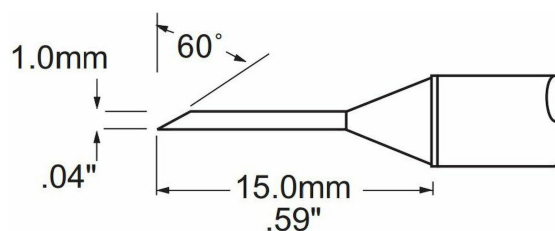

Manufacturer Oki

Mini hoof-shaped soldering tip with a 60° face, 1 mm tip width and 15 mm tip length from the PHT series. The hoof geometry carries a small solder reservoir at the edge, which suits standard hand soldering on fine leads. It fits the PS-900 and PS-CA1 hand pieces.

TECHNICAL DATA

Weight

0.1 kg

DESCRIPTION

Fine leads need a tip that carries solder and still stays narrow. The PHT-754627 is a mini hoof soldering tip with a 60° face, 1 mm tip width and 15 mm tip length from the PHT series, made for most standard hand soldering tasks.

BENEFITS

- Hoof shape with 60° face holds a defined solder reservoir at the edge
- 1 mm tip width for fine leads and tight pitches
- 15 mm tip length for good access on populated assemblies
- Direct change on the PS-900 and PS-CA1 hand pieces
- Versatile across most standard hand soldering applications

TECHNICAL DATA

Item number	WL24802
Model	PHT-754627
Manufacturer	OKI
Manufacturer item number	PHT-754627
Order unit	piece
Product series	PHT series

Tip shape	hoof, mini, 60°
Tip width	1 mm
Tip length	15 mm
Suitable hand piece	PS-900, PS-CA1
Weight	0.1 kg

APPLICATIONS

Hand soldering of through-hole leads and larger SMD packages, touch-up and repair on populated boards, and wire or connector joints in electronics manufacturing and service.

COMPATIBILITY AND SCOPE OF DELIVERY

Fits the PS-900 and PS-CA1 hand pieces of the PHT series. Supplied as one soldering tip, order unit piece.
