

Reducer Ring for Ring Lights, 66 mm to 58 mm - Starlight 100-003978

Item no. STL-100-003978

Manufacturer Starlight

Reducer ring that adapts ring lights from 66 mm to a 58 mm lens diameter. It gives the ring light a secure, play-free fit on the smaller lens.

TECHNICAL DATA

Weight **0.1 kg**

DESCRIPTION

The reducer ring adapts ring lights with a 66 mm mount to a lens with a 58 mm diameter. This lets the ring light sit firmly and centred on the smaller lens too.

BENEFITS

- Adapts ring lights from 66 mm to a 58 mm lens diameter
- Secure, centred and play-free fit
- Easy tool-free mounting

TECHNICAL DATA

Reduction	66 mm to 58 mm
Use	for ring lights
Model	100-003978
Manufacturer part no.	100-003978
Sales unit	piece

APPLICATIONS

For microscopy and inspection, to fasten a ring light securely to a lens with a 58 mm diameter.
