

Belt barrier post, post tube black, base plate yellow, 960 mm - Warmbier 1801.G.P.B

Item no. WL25470

Manufacturer Warmbier

Belt barrier post with a black powder-coated steel tube and a yellow cast iron base plate. At 960 mm high and 12.5 kg, the post stands securely and cordons off EPA zones free standing.

TECHNICAL DATA

Colour	Black
Height	960
Sales unit	1 Stück
Weight	12.5 kg

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The Warmbier belt barrier post cordons off EPA areas, machines and passages free standing. The powder-coated steel tube and the heavy cast iron base plate provide a stable footing; a webbing cassette is fitted separately.

BENEFITS

- Post tube in powder-coated steel, black
- Yellow cast iron base plate, 350 mm diameter, for a stable footing
- 960 mm high, free standing and quick to reposition

TECHNICAL DATA

- Post height: 960 mm
- Base diameter: 350 mm
- Weight: 12.5 kg
- Tube: powder-coated steel, black
- Base plate: cast iron, yellow
- Selling unit: 1 piece

APPLICATIONS

For free-standing cordoning and marking of ESD protected areas in electronics manufacturing, assembly and warehousing. Webbing cassette available separately.
