

Replacement filter for desoldering and vacuum pump MV-A - JBC 8446

Item no. WL25536 **Manufacturer** JBC
Manufacturer no. 8446

Genuine replacement filter for the JBC MV-A desoldering and vacuum pump. Regular filter changes keep the pump's suction constant and protect its internals from solder residue.

TECHNICAL DATA

Article authenticity	Original product
Condition of article	New
Country of Manufacture	Spain
HS-Code	85159080900
Weight	0.1 kg

DESCRIPTION

The JBC 8446 is the replacement filter for the MV-A desoldering and vacuum pump. During desoldering, molten solder is drawn into the filter, which retains it and protects the pump from contamination. A spent filter reduces suction, so timely replacement keeps full vacuum.

Benefits

- Genuine part for correct fit and full MV-A suction
- Retains drawn-in solder and protects the pump internals
- Tool-free change as a wear part during operation

Technical data

Model	0008446
Manufacturer part no.	0008446
Item no.	WL25536
Order unit	piece
Compatible pump	MV-A

Applications

Wear and replacement part for routine filter changes on the JBC MV-A desoldering and vacuum pump.

Compatibility and scope of delivery

Fits the JBC MV-A vacuum pump. Supplied as one piece. Made in Spain.
