

IR preheater 2000 W

Item no. WL25654

Manufacturer A1-ESD

IR preheater 2000 W

TECHNICAL DATA

Weight 0.1 kg

DESCRIPTION

Infrared preheater for large, printed circuit boards - digital

with **99** programmable/storable temperature profiles

- Time: **1** to **48** min (automatic mode max. **20** min)
- temperature **50-200** °C
- emitter area = **185 x 245** mm (4 zones)
- device dimensions H x W x D = **75 x 442 x 360** mm
- with type-K thermosensor, Kapton glue points, 4 magnetic board holders and metal bracket
- 230 V, **300 - 2000** W

item number	WL25654
model	WUH-5D
manufacturer	WEIDINGER
