

Connection set for BTX-208 solder fume extraction, 4-8 stations, 5 m hose - Oki BTX-CK4-50

Item no. WL25671

Manufacturer Oki

A central extraction unit is only as good as the ducting that links it to the soldering benches. The BTX-CK4-50 set contains everything needed to connect several stations to the BTX-208 extraction system: 5 m of 35 mm flexible hose, four double couplings for 5.6 mm tubes, a T-piece, end plugs, pipe clamps and vinyl tape. It supplies four stations in line or eight stations back to back.

TECHNICAL DATA

Weight

0.1 kg

DESCRIPTION

When building a tip extraction layout, the ducting decides how much airflow actually arrives at the soldering tip. The Oki BTX-CK4-50 is the prepacked connection set for the BTX-208 extraction system and covers the hook-up of up to eight workstations.

BENEFITS

- Complete connection material in one set, no sourcing of individual fittings
- Up to 4 stations in line or 8 stations back to back when using 5.6 mm tubes
- 5 m of flexible hose with 35 mm diameter for free routing above the bench
- Four couplings with two 5.6 mm stuffing boxes each for tight drops to the handpieces
- T-piece, end plugs, pipe clamps and vinyl tape for a clean installation

TECHNICAL DATA

Item number	WL25671
Model	BTX-CK4-50
Manufacturer	OKI
Manufacturer item number	BTX-CK4-50
Use	for BTX-208 extraction system

Maximum number of stations with 5.6 mm tubes	in line 4, back to back 8
Flexible hose	D 35 mm, 5 m
Coupling with two stuffing boxes 5.6 mm	4
End plug	2
T-piece connection for 35 mm hose	1
Pipe clamp	5
Roll of vinyl tape	1
Order unit	set
Weight	0.1 kg

APPLICATIONS

Setting up and extending solder fume tip extraction in electronics manufacturing, rework and training environments where several soldering benches share one extraction unit.

COMPATIBILITY AND SCOPE OF DELIVERY

For the Oki BTX-208 extraction system and its tip extraction using 5.6 mm tubes. Scope of delivery: 5 m flexible hose D 35 mm, 4 couplings with two 5.6 mm stuffing boxes each, 2 end plugs, 1 T-piece connection for 35 mm hose, 5 pipe clamps and 1 roll of vinyl tape.
