

ESD motor filter standard for CONVAC vacuum cleaner - Warmbier 7360.VAC.7401680

Item no. WL25794

Manufacturer Warmbier

Dissipative standard motor filter as a spare part for CONVAC ESD vacuum cleaners. Protects the motor from fine dust and keeps the suction power steady inside the EPA.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Norm	IEC 61340-5-1
Sales unit	1 Stück
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

Dissipative standard motor filter as a spare part for ESD vacuum cleaners of the CONVAC range. It protects the drive motor from fine dust and helps keep suction power steady and the appliance long-lived inside the electrostatic protected area (EPA).

BENEFITS

- Protects the motor from fine dust and wear
- Dissipative with low resistance
- Exact-fit spare part for CONVAC ESD vacuum cleaners

TECHNICAL DATA

- Version: standard motor filter
- typical resistance to earth: 10^4 to 10^5 ohm
- suitable for: CONVAC ESD vacuum cleaners
- Manufacturer no.: 7360.VAC.7401680
- Selling unit: 1 piece

APPLICATION

For ESD vacuum cleaners in electronics manufacturing, cleanrooms and EPA areas.

STANDARDS AND COMPLIANCE

Suitable for use in EPA areas to IEC 61340-5-1.
