

Connection cable 1 m for Nano soldering iron NA-2A - JBC A1205

Item no. WL25840

Manufacturer JBC

Original JBC connection cable A1205, 1 m long, for the NA-2A nano soldering iron. Replaces a damaged or worn cable and restores the safe power and signal link to the control unit.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Spain
HS-Code	85159080900
Weight	0.1 kg

DESCRIPTION

The JBC A1205 is the original 1 m connection cable for the NA-2A nano soldering iron. It links the handpiece to the control unit and carries power and control signals. As a spare part it keeps an existing nano station running without replacing the whole handpiece.

BENEFITS

- Original cable, exact fit for the NA-2A nano soldering iron
- 1 m length for sufficient freedom of movement at the bench
- Quick replacement of a damaged or broken cable
- Maintains the safe power and signal link to the control unit

TECHNICAL DATA

Manufacturer item no.	A1205
Item no.	WL25840
Model	A1205
Type	connection cable
Length	1 m
Suitable handpiece	Nano soldering iron NA-2A
Order unit	piece

APPLICATIONS

Spare and repair part for nano soldering workstations where the NA-2A connection cable is damaged or needs replacing.

COMPATIBILITY AND SCOPE OF DELIVERY

Suitable for the JBC NA-2A nano soldering iron. Supplied as a single piece (one cable).

RoHS compliant. Made in Spain.
