

Metal brush for Nano irons NP105 and NT105 - JBC CL8973

Item no. WL25859

Manufacturer JBC

CL8973 metal brush for thorough cleaning of the JBC NANO irons NP105 and NT105. It removes stubborn oxide and baked-on solder residue from the fine NANO tip when the cleaning sponge is no longer enough. Compact format for the workstation.

TECHNICAL DATA

Weight

0.1 kg

DESCRIPTION

The CL8973 metal brush thoroughly cleans the fine tips of the JBC NANO irons NP105 and NT105. It loosens stubborn oxide and baked-on solder residue that the cleaning sponge alone can no longer remove.

BENEFITS

- For thorough cleaning of NP105 and NT105
- Loosens stubborn oxide and baked-on solder residue
- Gentle on the fine NANO tip
- Compact format 80 mm x 40 mm x 35 mm for the workstation
