

Soldering tip chisel straight 1x0.3 mm for Nano - JBC C105-113

Item no. WL26230

Manufacturer JBC

Straight chisel-shaped micro soldering tip of the C105 series with 1 x 0.3 mm tip size and 5 mm tip length. Integrated heater for very fine soldering of the smallest components with the NT105 and NP105 Nano handpieces.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Spain
HS-Code	85159080900
Serie	C105
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

The finest soldering on tiny pads and the tightest pin pitches needs an extremely narrow tip with direct heat recovery. The straight chisel-shaped JBC C105-113 at 1 x 0.3 mm belongs to the smallest tip series from JBC and delivers heat right at the joint thanks to its integrated heater.

BENEFITS

- Very narrow chisel shape 1 x 0.3 mm for the finest SMD joints
- Integrated heater for fast heat-up and instant heat recovery
- Smallest C105 tip series for microelectronics
- Compatible with the NT105 and NP105 Nano handpieces
- Straight alignment with 5 mm tip length for a clear view

TECHNICAL DATA

Item no.	WL26230
Model	C105-113
Manufacturer	JBC

Manufacturer item no.	C105113
Tip series	C105
Tip shape	chisel
Tip size	1 x 0.3 mm
Tip length	5 mm
Tip alignment	straight
Integrated heater	yes
Order unit	piece

APPLICATIONS

Finest soldering and rework of tiny SMD components, small pads and tight pin pitches in microelectronics.

COMPATIBILITY AND SCOPE OF DELIVERY

Suitable for the JBC Nano handpieces NT105 (soldering iron) and NP105 (desoldering tweezer).
Supplied as a single tip.

Made in Spain, ESD-safe for use in areas protected to IEC 61340-5-1.
