

Knife soldering tip 2.5x0.3 mm for NT105/NP105 Nano - JBC C105-112

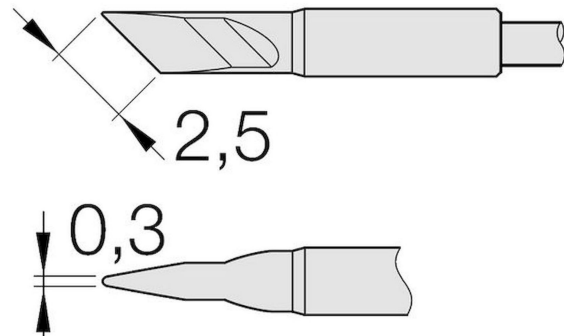

Item no. WL26231

Manufacturer JBC

Knife-shaped micro soldering tip of the C105 series, 2.5 x 0.3 mm with integrated heater for soldering and reworking the smallest components. Fits the NT105 and NP105 nano handpieces.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Spain
HS-Code	85159080900
Serie	C105
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

Repairing and reworking the finest SMD components needs a tip that reaches into tight spots and transfers heat instantly. The C105-112 is a knife-shaped micro soldering tip with a 2.5 x 0.3 mm tip size and an integrated heater built for exactly that.

BENEFITS

- Tip size 2.5 x 0.3 mm for precise work on the smallest components
- Integrated heater right at the tip for fast heat transfer
- Knife-shaped, straight geometry for drag soldering and pin rows
- Smallest tip series in the JBC range (C105), tuned for nano work
- Tip length 6 mm for a clear view of the joint

TECHNICAL DATA

Item no.	WL26231
Model	C105-112
Manufacturer	JBC

Manufacturer item no.	C105112
Tip series	C105
Tip shape	knife-shaped
Tip alignment	straight
Tip dimensions	2.5 x 0.3 mm
Tip length	6 mm
Integrated heater	yes
Suitable handpiece	NT105, NP105
Order unit	piece

APPLICATIONS

Soldering and repairing very small components, rework of the finest SMD joints, work on densely populated assemblies.

COMPATIBILITY AND SCOPE OF DELIVERY

Compatible with the JBC nano handpieces NT105 (nano soldering iron) and NP105 (nano desoldering tweezers). Supplied as a single cartridge tip with integrated heater.

JBC Long Life Tip, ESD-safe to IEC 61340-5-1. Made in Spain.
