

Filter mats M5-02 and F7-02 240 x 240 x 20 mm pack of 10 for series 160/200 - ULT 4-00241

Item no. WL26312

Manufacturer ULT

Filter mats are the cheapest wear part in an extraction system and at the same time the most effective one. This pack holds ten mats of classes M5-02 and F7-02 measuring 240 x 240 x 20 mm for the ULT 160 and 200 series units. Buying the pack keeps the change interval on schedule without a reorder every time.

TECHNICAL DATA

Weight 0.1 kg

DESCRIPTION

Leaving a filter mat in place too long is paid for by the main filter behind it. This pack of ten ULT filter mats in classes M5-02 and F7-02 puts the replacement stock right at the bench for extraction units of the 160 and 200 series. Each mat measures 240 x 240 x 20 mm and is inserted as a prefilter between the expanded metal mesh and the main filter cassette.

BENEFITS

- Pack of 10 mats, so change intervals can be kept without reordering
- Classes M5-02 and F7-02 for the coarse and fine dust fractions in solder fume
- 240 x 240 x 20 mm format, ready to insert with no cutting
- Relieves the H13 main filter cassette and cuts running filter costs
- One consumable for LRA 160, LRA 200 and the WSA-LR units

TECHNICAL DATA

Item number	WL26312
Model	02.0.575
Manufacturer	ULT
Manufacturer item number	4-00241 (02.0.575)
Dimensions (LxWxH)	240 mm x 240 mm x 20 mm

Order unit	Pack
Content	10 pieces
Filter type	Prefilter
Filter classes	M5-02, F7-02
Device series	LRA 160, LRA 200, WSA-10LR, WSA-20LR, WSA-5LR

APPLICATIONS

Routine maintenance of solder fume extraction at hand soldering and rework benches as well as at desoldering and repair cells. In multi-shift production a pack of ten is usually the annual demand of a single unit.

COMPATIBILITY AND SCOPE OF DELIVERY

For the ULT extraction units LRA 160, LRA 200, LAS 160, LAS 200 as well as WSA-10LR and WSA-LS. Scope of delivery: 10 filter mats M5-02 and F7-02.
