DESCRIPTION

For soldering tasks where a wire or lead must be guided in the tip. The 1.4 x 1.25 mm notch cradles the lead and transfers heat all around, while the heater integrated right at the tip keeps a constant temperature. The working face measures 3.2 x 1.5 mm.

BENEFITS

- Notch of 1.4 x 1.25 mm for reliable guiding of wires and leads
- Working face of 3.2 x 1.5 mm and 13.5 mm tip length for defined contact
- Heater integrated right at the tip for fast thermal response with no heat loss
- Special form for applications needing all round heat transfer
- Tool change without cooling down, as tip and heating cartridge form one unit
