

Ersatzspitze Nylonpinsel kegelförmig 14x4,3 mm für Flussmittelstift - Lico BR-102

Item no. WL28837

Manufacturer Lico

Replacement tip with a conical nylon brush (14 x 4.3 mm) for the Lico BON-102 flux pen. Restores a clogged or worn brush so you get a clean, controlled flux application without replacing the whole pen.

TECHNICAL DATA

HS-Code 85159080900

Weight 0.1 kg

DESCRIPTION

The Lico BR-102 is the replacement tip for the BON-102 flux pen. When the nylon brush clogs or frays, the new tip brings back even, precise flux dispensing, so you do not have to swap out the entire pen.

BENEFITS

- Conical nylon brush for precise application on pads and component leads
- Brush size 14 x 4.3 mm for standard application widths
- Tool-free change that extends the service life of the pen

TECHNICAL DATA

Manufacturer article no.	BR-102
Type	replacement tip, nylon brush
Shape	conical
Length	14 mm
Width	4.3 mm
Order unit	piece

APPLICATIONS

Applying flux during soldering and rework, repair and preparation of solder joints in electronics manufacturing.

COMPATIBILITY

Fits the Lico BON-102 flux pen and the CA-102 handle.
