

Empty flux pen with brush, 5.5 ml - JBC FL-A

Item no. WL28992

Manufacturer JBC

Empty JBC flux pen with built-in brush and 5.5 ml capacity. For filling with your own liquid flux for precise, clean application during soldering.

TECHNICAL DATA

Country of Manufacture **Spain**

HS-Code **85159080900**

Volumen (l) **5.500000**

Weight **0.1 kg**

DESCRIPTION

If you want to apply flux precisely and without spills, fill this empty JBC FL-A flux pen with your preferred liquid flux. The built-in brush meters the flux cleanly onto pads, pins and joints.

BENEFITS

- 5.5 ml capacity for many applications per fill
- Built-in brush for targeted, drip-reduced application
- Refillable with your preferred liquid flux
- Slim form 170 x 21 x 21 mm for good handling at the bench
