

Calibration of ESD audit kit 585 incl. certificate - Warmbier WL31852

Item no. WL31852**Manufacturer Warmbier**

Calibration service for the ESD audit kit 585 with Metriso 2000. The successful calibration is documented by a certificate. The temperature and humidity probe, the multimeter and the two Model 850 electrodes are not included.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Norm	IEC 61340-5-1
Sales unit	1 Zertifikat
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

This calibration for the ESD audit kit 585 ensures that your ESD audit measurement equipment continues to deliver standard-compliant and traceable results. The successful calibration is confirmed by a certificate.

BENEFITS

- Traceable calibration of your audit equipment
- Documentation by calibration certificate
- Maintains measurement reliability for recurring ESD inspections

SCOPE OF DELIVERY

- 7100.2000.KA: calibration of Metriso 2000
- 7220.844.KA: calibration of two-point electrode Model 844
- 7220.880.KA: calibration of ring electrode Model 880
- 7100.EFM51.KA: calibration of electric field meter EFM51
- 7100.SRM110.KA: calibration of Surface Resistance Meter SRM110

NOTE

Calibration of the temperature and humidity probe, the multimeter and the two Model 850 electrodes is not included.

STANDARDS AND COMPLIANCE

Supports standard-compliant monitoring of measuring equipment within the ESD protection concept according to IEC 61340-5-1.
