

ESD contact strip 100 cm, replaceable, for permanent heel strap 2560.890.R - Warmbier WL32103

Item no. WL32103

Manufacturer Warmbier

Replaceable, electrically conductive contact strip for the Warmbier permanent heel strap 2560.890.R. Length 1000 mm, hygienically swapped via the snap-button system.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Colour	Black
Norm	IEC 61340-5-1, DIN EN 61340-5-1
Sales unit	VPE 25 Stück
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe DIN EN 61340-5-1 IEC 61340-5-1

DESCRIPTION

The replaceable contact strip renews the dissipative element of the Warmbier 2560.890.R permanent heel strap and restores the conductive link between the wearer and the dissipative floor in the ESD protected area. The 1000 mm version gives extra reserve for frequent changes.

BENEFITS

- Swapped without tools at any time via the snap-button system for hygiene reasons
- Electrically conductive carbon coating for reliable personnel grounding
- Maintains the grounding function of the heel strap as the strip wears or soils

TECHNICAL DATA

- Model: 2560.890.R.100
- Length: 1000 mm
- Colour: black
- Material: conductive carbon-coated fabric
- Selling unit: pack of 25
- Fits: permanent heel strap 2560.890.R (WL32101)

APPLICATION

Wear part for routine maintenance of permanent heel straps at ESD-protected workstations.

STANDARDS AND COMPLIANCE

Supports operation of personnel grounding systems to DIN EN 61340-5-1 (IEC 61340-5-1).
