

ESD coil cord 2 MOhm, 3/10 mm snap, 3.6 m, black - Warmbier WL32115

Item no. WL32115**Manufacturer Warmbier**

Highly elastic ESD coil cord for personnel grounding. Combined 3/10 mm snap, 3.6 m working length, typical leakage resistance 2 MOhm.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Colour	Black
Norm	IEC 61340-5-1
Sales unit	1 Stück
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1 EN 61340-5-1

DESCRIPTION

This highly elastic coil cord from Warmbier connects the ESD wrist strap to the earthing point and offers a wide range of movement at 3.6 m. The leakage resistance keeps the discharge current at a safe level.

BENEFITS

- Highly elastic for fatigue-free work
- Typical leakage resistance 2 MOhm for safe personnel grounding
- Generous 3.6 m working length

TECHNICAL DATA

- Connection: 3 / 10 mm snap
- Working length: 3.6 m
- Typical leakage resistance: 2×10^6 Ohm
- Colour: black
- Selling unit: 1 piece

APPLICATION

For personnel grounding at ESD workstations together with wrist straps in electronics manufacturing and assembly.

STANDARDS

Suitable for building EPA areas to IEC 61340-5-1 and EN 61340-5-1.
