

Insulated handle for ESD electrode Model 850, spare part - Warmbier WL32134

Item no. WL32134**Manufacturer Warmbier**

Insulated handle as a spare part for the ESD measuring electrode Model 850. Allows safe handling and replacement of a worn handle.

TECHNICAL DATA

Country of Manufacture **Germany**

Sales unit **1 Stück**

Weight **0.1 kg**

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

Insulated handle as an original spare part for the Model 850 measuring electrode (WL20884). The handle insulates the operator from the electrode and allows safe handling during resistance measurements.

BENEFITS

- Original spare part to suit electrode Model 850
- Insulated design for safe measuring
- Extends the service life of the existing electrode

TECHNICAL DATA

- Suitable for: electrode Model 850 (WL20884)
- Selling unit: 1 piece

APPLICATION

Replacement of a damaged or worn handle on the Model 850 measuring electrode.
