

Rod Nozzle for HF-SPN11 with 42 Openings, L=267.5 mm - Warmbier 7520.HF.SPN11.B1

Item no. WL32165

Manufacturer Warmbier

This stainless-steel rod nozzle extends the Warmbier HF-SPN11 ionizing nozzle into a linear blow-off with 42 openings over 267.5 mm. The 10 mm hole spacing distributes the ionized air evenly and suits cleanroom applications.

TECHNICAL DATA

Sales unit 1 Stück

Weight 0.1 kg

Width 267

DESCRIPTION

The Warmbier rod nozzle 7520.HF.SPN11.B1 is an attachment for the HF-SPN11 and HF-42 ionizing nozzles. It distributes ionized compressed air linearly across 42 openings, discharging wider workpieces or moving webs evenly.

BENEFITS

- 42 openings for an even linear blow-off
- Hole spacing 10 mm
- Stainless steel, suitable for cleanroom applications
- Fits the HF-SPN11 and HF-42 ionizing nozzles

TECHNICAL DATA

- Model: 7520.HF.SPN11.B1
- Openings: 42
- Hole spacing: 10 mm
- Length: 267.5 mm
- Material: stainless steel
- Selling unit: 1 piece

APPLICATIONS

As an attachment for the Warmbier HF-SPN11 ionizing nozzle in machines and cleanroom processes where static charges are neutralized across an area.
