

Rod Nozzle for HF-SPN11 with 31 Openings, L=367.5 mm - Warmbier 7520.HF.SPN11.B4

Item no. WL32167

Manufacturer Warmbier

This stainless-steel rod nozzle extends the Warmbier HF-SPN11 ionizing nozzle into a long linear blow-off with 31 openings over 367.5 mm. The 10 mm hole spacing distributes the ionized air across a wide span and suits cleanroom applications.

TECHNICAL DATA

Sales unit 1 Stück

Weight 0.1 kg

Width 367

DESCRIPTION

The Warmbier rod nozzle 7520.HF.SPN11.B4 is the long version of the attachment for the HF-SPN11 ionizing nozzle. With 31 openings and 10 mm hole spacing it distributes ionized compressed air over 367.5 mm, covering wider workpieces.

BENEFITS

- 31 openings across a wide working width
- Hole spacing 10 mm
- Stainless steel, suitable for cleanroom applications
- Fits the HF-SPN11 ionizing nozzle

TECHNICAL DATA

- Model: 7520.HF.SPN11.B4
- Openings: 31
- Hole spacing: 10 mm
- Length: 367.5 mm
- Material: stainless steel
- Selling unit: 1 piece

APPLICATIONS

As an attachment for the Warmbier HF-SPN11 ionizing nozzle in machines and cleanroom processes with a larger working width.
