

Stereo Microscope - KERN OZB-A5301

Item no. KER-OZB-A5301

Manufacturer Kern

EAN 4045761169609

The KERN OZB-A5301 is a focus holder for the modular stereo-microscope system, joining the microscope head to the stand column. Its handwheel with adjustable tension lets you focus precisely with little fatigue. The 76 mm head and 25 mm column fittings suit all stereo-microscope and universal stands except the spring-loaded arm.

TECHNICAL DATA

Country of Manufacture	China
HS-Code	90119000
Weight	1.6 kg

DESCRIPTION

The holder is the link between microscope head and stand and decides how smoothly you can focus. The KERN OZB-A5301 connects the two through standardised fittings and sets the focus height with a handwheel whose tension you can adjust.

BENEFITS

- **Adjustable tension:** handwheel matches your feel of use for precise focusing
- **Standardised fittings:** 76 mm for the microscope head, 25 mm for the stand column
- **Broad compatibility:** fits all stereo-microscope and universal stands except the spring-loaded arm
- **Compact module:** just 1,4 kg net

TECHNICAL DATA

- **Head fitting:** 76 mm
- **Column fitting:** 25 mm
- **Focusing:** handwheel with adjustable tension
- **Series:** OZB-H
- **Weight (net):** 1,4 kg
