

ESD brush with hard bristles, 100 x 12 mm - A1-ESD WL32756

Item no. WL32756

Manufacturer A1-ESD

Volume-conductive ESD brush for removing dust and particles from static-sensitive assemblies. Hard black bristles and a resistance below 10 to the 5 Ohm keep cleaning safe inside the EPA.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Colour	Black
Norm	IEC 61340-5-1
Sales unit	1 Stück
Weight	0.1 kg
Width	12

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

This volume-conductive ESD brush keeps workstations and assemblies free of dust, dirt and loose particles inside the EPA without building up electrostatic charge. The hard bristles lift stubborn contamination even in tight areas of printed circuit boards.

BENEFITS

- Volume-conductive throughout the brush body, draining charge safely through grounded personnel
- Hard bristles for thorough removal of dust and particles
- Compact shape for cleaning PCBs and assemblies
- Permanently marked with the ESD symbol

TECHNICAL DATA

- Length: 100 mm
- Width: 12 mm
- Brush width: 15 mm
- Bristle hardness: hard

- Colour: black
- Material: conductive nylon (bristles), volume-conductive plastic (body)
- Typical resistance: below 10 to the 5 Ohm
- Selling unit: 1 piece

APPLICATION

Suitable for dry cleaning of circuit boards, connectors and electrostatic-sensitive components at the ESD workbench.

STANDARDS AND COMPLIANCE

Supports operation of an EPA per IEC 61340-5-1.
