

ESD brush with handle, 225 mm - A1-ESD WL32770

Item no. WL32770

Manufacturer A1-ESD

Volume-conductive ESD brush with handle and hard bristles for the EPA. Bristle length 20 mm, resistance below 10 to the 5 Ohm.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Colour	Black
Norm	IEC 61340-5-1
Sales unit	1 Stück
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

This volume-conductive ESD brush with handle removes dust, dirt and loose particles from workstations and assemblies in the EPA without building up electrostatic charge. The longer body and handle make cleaning larger areas easier.

BENEFITS

- Volume-conductive throughout the body, safe drainage through grounded personnel
- Hard bristles with 20 mm bristle length
- Handle for low-fatigue work
- Permanently marked with the ESD symbol

TECHNICAL DATA

- Length: 225 mm
- Bristle length: 20 mm
- Bristle hardness: hard
- Colour: black
- Material: conductive nylon (bristles), volume-conductive plastic (body and handle)

- Typical resistance: below 10 to the 5 Ohm
- Selling unit: 1 piece

APPLICATION

For dry cleaning of work surfaces and ESD-sensitive components.

STANDARDS AND COMPLIANCE

Supports operation of an EPA per IEC 61340-5-1.
