DESCRIPTION

The anti-static tacky mat M200 holds back particles at the transition to a cleanroom or ESD protected area. Soles and wheels are cleared of dust as they cross, before it reaches the clean zone.

BENEFITS

- 30 peel-off film layers with high adhesive strength per mat
- When soiled or adhesion drops, simply peel off the top film
- Indicator for the remaining films on the mat
- Non-slip thanks to the self-adhesive base mat
