

Cleaning sponge with hole 80 x 52 mm yellow pack of 50 - Oki AC-YS3-P

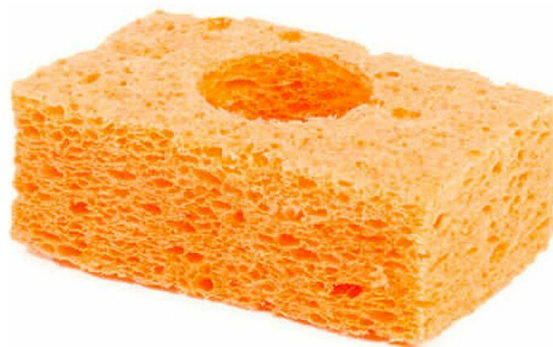

Item no. WL34447

Manufacturer Oki

A clogged sponge stops taking up solder and the tip starts to oxidise. The AC-YS3-P replacement sponge measures 80 x 52 mm with a centre hole and fits the rectangular work stands of the MX and MFR series. Supplied as a pack of 50 pieces, so shift changes never wait for a reorder.

TECHNICAL DATA

Colour	Yellow
Weight	0.1 kg

DESCRIPTION

A soldering tip stays wettable only as long as it is wiped on a damp, clean sponge. The Oki AC-YS3-P is the exact-fit replacement sponge, 80 mm x 52 mm with a centre hole, for the rectangular work stands of the MX and MFR systems.

BENEFITS

- 80 mm x 52 mm format seats precisely in the sponge tray of the rectangular work stands
- Centre hole carries removed solder and flux residue downwards instead of spreading it
- Pack of 50 pieces covers several workstations over a long period
- Yellow colour makes contamination and replacement need immediately visible

TECHNICAL DATA

Item number	WL34447
Model	AC-YS3-P
Manufacturer	OKI
Manufacturer item number	AC-YS3-P
Dimensions	80 mm x 52 mm
Type	Cleaning sponge with hole, yellow
Pack unit	50 pcs

Weight

0.1 kg

APPLICATIONS

Tip cleaning at hand soldering stations in electronics manufacturing, repair and laboratory work wherever a wetted tip and stable heat transfer are required throughout the shift.

COMPATIBILITY AND SCOPE OF DELIVERY

For the rectangular work stands of the Oki MX and MFR series. Delivery comprises 50 cleaning sponges.
