

Pocket filter F9-02 prefilter, set of 10 for ASD 200 TH and LAS 200 - ULT 02.0.555

Item no. WL34583

Manufacturer ULT

Anyone maintaining several 200 series extraction units needs prefilters on the shelf rather than on order. This pack holds 10 F9-02 pocket filters from the HFM TH filter system that keep the dust load away from the main filter in the LAS 200 and ASD 200 TH units. The pocket design offers a large filter area and keeps the pressure drop low over a long period.

TECHNICAL DATA

Weight 0.1 kg

DESCRIPTION

With several capture points in electronics manufacturing, prefilter replacement becomes routine work. The ULT 02.0.555 pack supplies 10 F9-02 pocket filters for the LAS 200 and ASD 200 TH extraction units.

BENEFITS

- 10 pocket filters per pack for predictable maintenance without reordering
- F9 filter class within the HFM TH filter system, placed ahead of the main stage
- Pocket design with high dust holding capacity and a slowly rising pressure drop
- Genuine ULT parts dimensioned for the filter compartment of the 200 series units

TECHNICAL DATA

Item number	WL34583
Model	02.0.555
Manufacturer	ULT
Manufacturer item number	02.0.555
Order unit	Pack
Content unit	10 pieces
Filter type	Prefilter
Filter class	F9

Filter system

HFM TH

Device series

ASD 200 TH, LAS 200

APPLICATIONS

Stock keeping for the planned maintenance of solder fume and laser fume extraction on production lines, in rework areas and in laser cells. Particularly useful where several 200 series units run in shift operation.

COMPATIBILITY AND SCOPE OF DELIVERY

The delivery contains 10 F9-02 pocket filters. They belong to the HFM TH filter system and fit the LAS 200 and ASD 200 TH extraction units. A complete prefilter set also requires the M5-01 filter mat of the same series.
