

Twin-capillary dispensing needle, 1.20 mm ID, 10 mm - Nordson EFD 7726427

Item no. WL36429

Manufacturer Nordson EFD

Kein Produktbild

This special dispensing needle applies through two parallel capillaries and lays down two beads in a single pass. Each capillary is 10 mm long with a 1.20 mm inner diameter for consistent dual-line deposits.

TECHNICAL DATA

Weight **0.1 kg**

DESCRIPTION

The twin-capillary dispensing needle lays two material beads in one pass through two parallel capillaries, removing the need for a second run on dot or bead work.

- Two parallel capillaries for simultaneous dual-line deposit
- 1.20 mm inner diameter per capillary for a defined shot volume
- 10 mm capillary length for good access

TECHNICAL DATA

Model	17619-10 / 7726427
Manufacturer	Nordson EFD
Manufacturer part no.	7726427
Design	2 capillaries
Inner diameter	1.20 mm
Capillary length	10 mm

Suited to medium-viscosity media that must be placed as two parallel lines. Fits common Nordson EFD syringe barrels with standard thread.
