

Cleanroom polyester swab, 3.0 mm head, flexible polypropylene handle - Chemtronics 38040

Item no. WL36639**Manufacturer Chemtronics**

Cleanroom polyester swab with a heat-sealed 3.0 mm head and polypropylene handle with a flexible end. Solvent-resistant and low-residue down to ISO 4.

TECHNICAL DATA

Sales unit	500er Pack
Weight	0.1 kg

DESCRIPTION

The Coventry 38040 is a cleanroom polyester swab with a heat-sealed head and polypropylene handle with a flexible end. The narrow head reaches tight areas and the flexible end follows contours.

BENEFITS

- Heat-sealed polyester head without adhesive
- Flexible handle end for working close to contours
- Resistant to solvents and acids, low residue

TECHNICAL DATA

- Head: polyester, heat-sealed
- Head width: 3.0 mm
- Handle: polypropylene with flexible end
- Cleanroom class: ISO 4 to 7 (Class 10 to 10,000)
- Pack size: 500 pieces

APPLICATIONS

Suitable for precise cleaning of tight spots on connectors, optics and assemblies in electronics and cleanroom production.
