

WTP 90 Set hybrid soldering iron with safety rest, 90 W, Power-Response - Weller WTP 90 Set

Item no. WL36830

Manufacturer Weller

Hybrid soldering iron set with 90 W and Power-Response technology for very fast, precise reaching of soldering temperature. Heat-up time approx. 7 s, slim design, incl. WSR 200 safety rest and XNT A tip.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Germany
HS-Code	85151990000
Weight	0.1 kg

DESCRIPTION

The WTP 90 Set is a universal hybrid soldering iron with 90 W and Power-Response technology for very fast and precise reaching of soldering temperature. The slim design and the quick-change heating element including tip make it flexible to use.

BENEFITS

- Power-Response technology for very fast and precise reaching of soldering temperature
- Heat-up time approx. 7 s for quick working
- Slim design for universal soldering work
- Quick-change heating element including tip for flexible working
- High-mass tips (XNT, THM) for demanding soldering work

TECHNICAL DATA

Model	WTP 90 Set
Manufacturer item no.	T0052922399N
Technology	Power-Response
Power	90 W
Voltage	24 V
Warm-up period	7 s

Temperature range	100-450 deg C (200-850 deg F)
Type of tip	XNT
Suitable tips	XNT, THM

APPLICATIONS

- Universal soldering work in electronics and manufacturing
- Demanding joints with high heat demand (high-mass tips)

COMPATIBILITY AND SCOPE OF DELIVERY

- Included soldering iron: WTP 90
- Included stand: WSR 200
- Included soldering tip: XNT A
- Replacement tool for straight XNT tips
- Suitable control unit: WT 1, WT 1H
- Integrated direct extraction via FE retrofit kit with 4.5 mm suction tube (T0052918599)

WT compatible. Made in Germany.
