

Electric valve handle for ValveMate controller, 794 valve series - Nordson EFD 7028718

Item no. WL37110

Manufacturer Nordson EFD

Hand-held spot dispensing with a dispense valve often lacks a safe on-site trigger. This electric valve handle drives Nordson EFD valves through a ValveMate controller and fires the dispense cycle right from your hand. It fits all valves except 702V and 750V/751V.

TECHNICAL DATA

Weight 0.1 kg

DESCRIPTION

The electric valve handle turns a Nordson EFD dispense valve into a hand-held tool and triggers the ValveMate-controlled dispense cycle directly at the part.

- Electric triggering together with an EFD ValveMate controller
- Fits all valves except 702V and 750V/751V
- Horizontal mounting position for the 794 valve series
- Hand-held operation for targeted spot and bead dispensing

TECHNICAL DATA

Model	7028718
Manufacturer	Nordson EFD
Manufacturer part no.	7028718
Type	valve handle, electric
Control	EFD ValveMate controller
Mounting position	horizontal
Valve series	794
Not suitable for	702V, 750V/751V

For hand-held use of 794 series valves on a ValveMate controller, when parts are guided manually under the valve.
