

Stand with connecting cable for TMT-5000S - Thermaltronics SHH-2

Item no. WL37504

Manufacturer Thermaltronics

The SHH-2 is the handpiece stand for TMT-5000S benches and already carries the cable to the station. Its phenolic body is ESD safe and heat resistant, the open cradle holds the handpiece stable and cools it while parked. Brass wool and sponge for tip cleaning are part of the delivery.

TECHNICAL DATA

Weight

0.1 kg

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The SHH-2 is the parking stand for handpieces on the TMT-5000S power unit. Through the connecting cable the stand reports the idle state to the station, while the handpiece itself rests in an open cradle that locks it securely and cools it at the same time.

BENEFITS

- Connecting cable to the TMT-5000S already fitted to the stand
- Phenolic body, heat resistant, ESD safe and RoHS compliant
- Open sure-locking cradle for a stable park position
- Handpiece cools down during the parked period
- Brass wool and sponge included plus slots for tip cartridges

TECHNICAL DATA

Item number	WL37504
Model	SHH-2
Manufacturer	Thermaltronics

Manufacturer item number	SHH-2
Material	Phenolic, ESD safe
Suitable power unit	TMT-5000S
Dimensions with packaging (LxWxH)	230 mm x 120 mm x 100 mm
Dimensions with packaging in inches (LxWxH)	9.1 in x 4.7 in x 3.9 in
Included accessories	Brass wool, sponge
Weight	0.1 kg
Order unit	Piece

APPLICATIONS

Equipping and replacement for TMT-5000S soldering benches in repair, small-batch production and test areas, in particular where the station evaluates the idle state of the handpiece.

COMPATIBILITY AND SCOPE OF DELIVERY

Intended for handpieces of the TMT-5000S. Supplied as the stand with connecting cable together with brass wool and sponge for tip cleaning.

Stated by the manufacturer as ESD safe and designed for use inside an EPA.
