

## Soldering tip chisel bent 30° 1.78mm (0.07 in), P series - Thermaltronics PM60CB225

Item no. WL38049

Manufacturer Thermaltronics

P series soldering tip for the Thermaltronics PM60CB225, chisel bent shape, 1.78mm (0.07 in) width, 10 mm (0.39 in) length. Operating temperature 325-358 °C, lead-free and RoHS compliant. Fits the SHP-P, SHP-PM handpieces.

### TECHNICAL DATA

|                        |                  |
|------------------------|------------------|
| Ausführungsklasse      | ESD (antistatic) |
| Country of Manufacture | United States    |
| HS-Code                | 85159080900      |
| Weight                 | 0.1 kg           |

## STANDARDS & COMPLIANCE

ESD safe

## DESCRIPTION

This P series soldering tip delivers heat precisely to the joint on Thermaltronics Curie-point heating systems. With a tip width of 1.78mm (0.07 in) and a chisel bent shape, it supports repeatable soldering within the fixed temperature window 325-358 °C.

## BENEFITS

- Chisel bent shape, 1.78mm (0.07 in) width, 10 mm (0.39 in) length
- Fixed P series temperature window 325-358 °C for consistent results
- Lead-free and RoHS compliant

|                    |                  |
|--------------------|------------------|
| Tip shape          | chisel           |
| Tip alignment      | bent             |
| Tip width          | 1.78mm (0.07 in) |
| Tip length         | 10 mm (0.39 in)  |
| Temperature range  | 325-358 °C       |
| Suitable handpiece | SHP-P, SHP-PM    |

## APPLICATIONS

Suitable for lead-free and conventional soldering in electronics manufacturing, repair and rework, from fine to medium joints depending on tip width.

## COMPATIBILITY AND SCOPE OF SUPPLY

Fits the SHP-P, SHP-PM soldering handpieces and works on the following systems: TMT-2000PS, MFR-PS1100, MFR-PS2200, MFR-PS1K, MFR-PS2K. Supplied as a single tip (1 piece).

Lead-free, RoHS compliant, suitable for ESD-safe work on a grounded Thermaltronics system.
