

Soldering tip knife 4,83 mm (0,19 in), 325-358 °C - Thermaltronics PM60DS526

Item no. WL38071

Manufacturer Thermaltronics

Lead-free knife soldering tip 4,83 mm (0,19 in) for the Thermaltronics SHP-P, SHP-PM handpieces. Working temperature 325-358 °C, suited to precise SMD and THT soldering. Replaces Metcal STP-DRK50.

TECHNICAL DATA

Ausführungsklasse **ESD (antistatic)**

Country of Manufacture **United States**

HS-Code **85159080900**

Weight **0.1 kg**

STANDARDS & COMPLIANCE

ESD safe

DESCRIPTION

The knife soldering tip PM60DS526 transfers the heat of the inductively heated Thermaltronics Curie technology precisely to the joint. With a tip width of 4,83 mm (0,19 in) and a temperature range of 325-358 °C, it suits fine to medium soldering work on circuit boards.

BENEFITS

- Knife geometry with 4,83 mm tip width for targeted heat transfer
- Temperature range 325-358 °C (P series) for lead-free solder
- Lead-free and RoHS compliant
- Fits the SHP-P, SHP-PM handpieces

TECHNICAL DATA

Manufacturer item no.	PM60DS526
Item no.	WL38071
Tip shape	knife
Tip width	4,83 mm (0,19 in)

Tip length	16 mm (0,63 in)
Temperature range	325-358 °C
Product series	P soldering tip series
Compatible handpiece	SHP-P, SHP-PM
Replaces Metcal	STP-DRK50

APPLICATIONS

- SMD and THT soldering on printed circuit boards
- Repair and rework in electronics manufacturing

COMPATIBILITY AND SCOPE OF DELIVERY

- Handpieces: SHP-P, SHP-PM
- Stations of the TMT-2000PS, MFR-PS1100, MFR-PS2200, MFR-PS1K, MFR-PS2K series
- Delivery: 1 piece
- Replaces Metcal article no. STP-DRK50

RoHS compliant, lead-free, suitable for ESD-safe use.
