

Tool holder with intelligent heat management for AL250 - JBC 16275

Item no. WL38777

Manufacturer JBC

Holder for safely parking the AL250 Auto-Feed iron on the ALS Stand. The metal top detects the parked tool and activates Sleep and Hibernation modes, extending soldering tip life up to five times.

TECHNICAL DATA

Ausführungsklasse	ESD (antistatic)
Country of Manufacture	Spain
HS-Code	85159080900
Weight	0.1 kg

STANDARDS & COMPLIANCE

ESD safe IEC 61340-5-1

DESCRIPTION

The JBC 16275 is the matching tool holder for the AL250 Auto-Feed soldering iron, providing a safe grip of the tool while it is not in use. Combined with the ALS Stand it extends tip life up to five times.

BENEFITS

- Intelligent heat management: the metal top detects the parked tool and automatically activates Sleep and Hibernation modes.
- Up to 5 times longer soldering tip life thanks to automatic cool-down during work breaks.
- Adjustable position: turning the knob adapts the holder to your work position.
- Safe parking of the hot iron protects components and operator.
